

Celebrate

Is this real
I hope it's not fake
Just a dream, dont let me wake
Hands down
Hands down
You're the best I've ever found

And I celebrate the day
That I met you, That I met you
And I celebrate the day
That I met you, That I met you

You and me, can change the world
Move a mountain, the impossible
Is unbound, hands down
You're the best I've ever found

And I celebrate the day
That I met you, that I met you
And I celebrate the day
That I met you, That I met you

The impossible is possible
The unthinkable is coming true
The impossible is possible
The unthinkable is coming true

And I celebrate the day
that I met you, that I met you.

The impossible is possible
The unthinkable is coming true
